HIGHLIGHTS

WINS

Key highlights from the last 12 months

🟢 Premium Key Account wins — Total Fusion & Virgin Active

Secured equipment sales with Total Fusion and Virgin Active — two of AU's largest fitness chains. Virgin Active 8-club deal and WGA pilot represent significant commercial validation of the brand.

🟢 \$1.42M total revenue with 27.6% GP margin

Strong first-year performance. Revenue grew +155% from April to January peak — demonstrating accelerating demand across both retail and commercial channels.

🟢 Commercial channel strength — 12.8% (\$182K)

12.8% of revenue from commercial accounts — significantly higher than other portfolio brands. Driven by Key Account wins with Total Fusion and Virgin Active.

🟢 257K page views, +157% growth

Page views nearly tripled from 11.6K (May) to 34.9K (Dec). 156K sessions across the period with strong month-on-month growth driven by paid social investment.

HYROX HANG CHALLENGE — BRISBANE

ATTENTION AREAS

CHALLENGES

Key areas requiring support and strategic focus

**Limited home/consumer equipment sales**

Very little equipment sales to competitors or home users. The brand is heavily indexed toward commercial/facility buyers. Expanding to the home fitness segment requires a different go-to-market approach and product positioning.

**Hyrox event attendance ROI**

Hyrox events tend to yield little sales (even from leads generated) and stand to be more of a brand activation initiative. Supports theory that equipment is purchased by commercial facilities rather than home use.

**Organic search at 6%**

Organic search represents only 6% of traffic — reliance on paid channels (56% of sessions). Brand awareness outside the Hyrox community is limited.

CHANNEL & MARKET SNAPSHOT

Paid channel dependency

56% of all sessions from paid media

Home consumer segment

Minimal sales outside commercial/facility buyers

Event ROI

High activation costs vs direct sales returns

Brand search volume

Organic search 6% — low unaided brand awareness

The commercial channel is a genuine strength (12.8% vs <2% for other brands). Event and digital strategy should focus on driving commercial pipeline.

STRATEGY

PLANS & PRIORITIES

Scale Commercial Key Accounts & build consumer brand

STRATEGIC FOCUS

Double down on the commercial channel advantage with Total Fusion, Virgin Active, and WGA. Simultaneously invest in building consumer brand awareness through Hyrox event activations and dedicated content to unlock the home fitness segment.

\$ COMMERCIAL

- Expand Total Fusion relationship — equipment refresh and new club openings
- Execute Virgin Active 8-club deal — standardise Centr x Hyrox functional zones
- WGA pilot program — prove model then scale nationally
- Build commercial sales collateral: case studies, 3D renders, fit-out proposals

⚡ EVENTS & ACTIVATION

- Activate at all AU Hyrox events — shift from direct sales to brand awareness and lead capture
- Experience Centre for product demos, athlete shoots, and commercial buyer walk-throughs
- Leverage Hang Challenge format — high engagement, low cost activation at events
- Post-event nurture sequences to convert attendee interest into pipeline

🔗 DIGITAL & BRAND

- Increase paid social investment — already the #1 traffic driver at 29% of sessions
- Build Hyrox training content for SEO — workout guides, race prep, functional training tips
- Partner with Hyrox athletes and community influencers for UGC and social proof
- Expand product page content — Wall Ball, Sandbag, Kettlebell pages already driving interest

PARTNERSHIP

SUPPORT NEEDED

Key requests to accelerate ANZ growth

LOCAL SUPPORT — JAY CLARKE

Local support through Jay Clarke for direct customer conversations with Key Accounts. The commercial channel is our strongest growth lever (12.8% of revenue) and having local Centr representation to support GAF in Total Fusion, Virgin Active, and WGA discussions would accelerate deal velocity and account expansion.

3D RENDERS & ASSETS

- Head office support with 3D renders for commercial proposals — gym operators need visual fit-out plans before committing
- CAD files and space planning tools for Hyrox functional zones in different facility sizes
- High-quality product photography and lifestyle imagery for AU marketing campaigns
- Co-branded content assets adapted for AU market — event collateral, social content, POS materials

MDF & PRODUCT SEEDING

- Continued Marketing Development Fund support for AU brand-building — paid social, event activations, content production
- Product seeding for Key Account demonstrations — sample equipment for Total Fusion and Virgin Active trials
- Product seeding for Key Account demonstrations — sample equipment for Total Fusion and Virgin Active trials

STRATEGIC PARTNERSHIP

- Joint Key Account strategy — aligned approach to Total Fusion, Virgin Active, WGA with clear roles and commercial terms
- New product roadmap visibility — first-mover on AU launches to maintain competitive advantage in commercial channel
- Quarterly review cadence to track commercial pipeline and brand growth together

FINANCIAL CONTEXT

Revenue: **\$1.42M**GP: **\$390K**Commercial: **\$182K (12.8%)**
