HIGHLIGHTS

WINS

Key highlights from the last 12 months

Coaches Congress Representation

GAF exhibited as Rep Fitness at the inaugural Coaches Congress event in Wollongong, with REP providing \$4,237 in MDF support — strong partnership signal

302K page views (AU)

Strong organic search presence at 15% of sessions — better brand recognition than some peer brands in the portfolio

Margin improvement trend

GP% climbing from 19.1% (Jun EOFY) to 32.1% (Mar) — showing pricing discipline, improved product mix, and reduced discounting as brand matures

COACHES CONGRESS —
WOLLONGONG, NSW

ATTENTION AREAS

CHALLENGES

Key areas requiring attention and support

Online friction of rack building

Rep's rack configurator and customisation creates complexity for online buyers. Many SKUs, attachments, and compatibility questions reduce conversion rates. Customers often need hand-holding through the build process — a barrier for pure online sales.

Brand awareness in AU market

While organic search (15%) is healthier than some portfolio brands, paid channels still drive 66% of AU traffic. Continued brand investment needed to shift mix toward earned traffic.

Dumbbell margin pressure

Dumbbell category drives 24% of revenue (\$306K) but only 21.6% GP due to freight costs on heavy items. Domestic delivery of 15–50kg dumbbells compresses margins — need pricing support or freight efficiencies.

RACK BUILDER COMPLEXITY

- **Power Racks (PR-4000, PR-5000)**
Multiple colour/height/config options

- **Rack Attachments**
50+ compatible accessories

- **Ares 2.0 Functional Trainer**
Integrated rack + cable — complex specs

- **Bench Compatibility**
Footprint matching with different racks

Rack Attachments (\$260K, 20% of revenue) shows strong demand, but online friction means many buyers need **phone/in-store support** to complete builds.

STRATEGY

PLANS & PRIORITIES

Rep Fitness growth strategy — next 6 months

STRATEGIC FOCUS

Leverage the strong referral pipeline from repfitness.com while investing in local brand-building to create independent AU demand. Expand commercial channel and improve online rack-buying experience.

⚡ DIGITAL STRATEGY

- Invest in Australian paid social and content to build independent brand search volume
- Improve on-site conversion for rack products — guided configurator or simplified bundles
- Continue balanced paid media mix across Shopping, Search and Social channels

🔗 CONTENT & EXPERIENCE

- Experience Centre for local content production — Rep Fitness product showcase and athlete shoots
- Event activations (Coaches Congress, fitness expos) — continue building grassroots brand presence
- Local AU content: product reviews, rack build guides, comparison content for SEO
- UGC and influencer partnerships to build social proof in the AU fitness community

💰 COMMERCIAL

- Build B2B/commercial channel — currently only \$22K (1.7%) — significant room to grow with gym fit-outs
- Rack builder UX improvement — reduce online friction for customised rack purchases
- Dumbbell pricing strategy — address margin pressure on high-freight heavy products
- Explore wholesale partnerships to expand distribution beyond GAF direct

EXPERIENCE CENTRE

PARTNERSHIP

SUPPORT NEEDED

Key requests to accelerate ANZ growth

MDF SUPPORT — PRIORITY REQUEST

Marketing Development Funds to co-invest in AU brand-building. The Coaches Congress MDF (\$4,237) was a great start — looking to expand this model across digital campaigns, event activations, and content production to build independent AU demand beyond repfitness.com referral traffic.

% PRICING & MARGIN

- Dumbbell pricing relief — category drives 24% of revenue at only 21.6% GP, freight on heavy items compresses margins
- Volume-based pricing tiers to improve margin as AU volume grows
- Competitive pricing support on key SKUs (PR-5000, Pepin dumbbells) against local competitors
- Freight cost collaboration — joint strategy for heavy product domestic delivery

⚡ MARKETING ASSETS

- Local AU marketing assets — lifestyle imagery, video content for Meta/YouTube campaigns
- Rack configuration guides and visual tools to reduce online purchase friction
- Co-branded creative for AU market — adapt US brand assets for local audience
- Event/expo support materials — booth collateral, demo equipment for activations

🎯 STRATEGIC PARTNERSHIP

- Joint business plan with aligned revenue targets for ANZ market
- New product roadmap visibility — first-mover on launches in AU (e.g. new rack models, bench updates)
- Quarterly review cadence to track brand growth and margin improvement together
- Support building B2B/commercial channel — gym fit-out reference projects and case studies

FINANCIAL CONTEXT

12-Month Revenue: **\$1.29M**

Gross Profit: **\$323K**

GP Trend: **19% → 32%** (improving)
